

VENKATESH CHAMARTHI

SOFTWARE ENGINEER

PROFILE

Aspiring software engineer with a strong foundation in Java and Python, complemented by hands-on experience in developing projects during an internship at VaultsOfcode. Adept at designing, building, and maintaining technology solutions that meet business requirements, with a keen aptitude for learning and problem-solving. Seeking to leverage my skills and knowledge in a dynamic and challenging environment at Accenture, contributing to innovative and impactful solutions.

WORK EXPERIENCE

CodingRajaTechnologies

Web Developer Intern

MAY 2024 - JULY 2024

- Music Player Website: Designed and developed a fully functional music player website, implementing user-friendly features and an intuitive interface.
- Resume Generator: Created a web-based application that allows users to generate professional resumes, integrating customizable templates and user input functionalities.

VaultsofCodes

Python Developer Intern

Nov 2023 - Dec 2023

- To-Do List Application: Spearheaded the development of a user-friendly To-Do List application using fundamental Object-Oriented Programming (OOP) concepts in Python. Enhanced functionality by implementing features such as task categorization, priority setting, and deadline reminders.
- Tic-Tac-Toe Game: Developed an interactive Tic-Tac-Toe game, focusing on robust game logic and an intuitive user interface. The project involved implementing algorithms to handle game states, check win conditions, and ensure a seamless user experience.
